Filled with quotes from all facets of Bowie's career, from celebrity fans and musical collaborators, to Hollywood stardom and making a comeback. Chameleonic, hypnotising and utterly irreplaceable, David Bowie was more than just a pop star. More underdog than diamond dog, he was an inspiration to millions: a hot tramp from the streets of London, who proved that anything's possible when you follow your dreams. Whether posing as an electrifying alien rock god or a thin white duke, Bowie's career is a veritable kaleidoscope of ever-changing colors, styles and sounds. From Aladdin Sane to Ziggy Stardust, from Goblin King to China boy, from sharp-suited aristocrat to androgynous bohemian Queen, Starman collects black-and-white sketches of his most iconic looks, stardusted visions and stylistic moments. Filled with quotes, facts and memories of Bowie from those who knew him best, David Bowie: Starman offers a uniquely creative way to remember the Starman and his incredible life on Earth - essential reading for fans of every generation. Fans of *Escape from Mr. Lemoncello's Library* and *The Mysterious Benedict Society* will race through this exciting adventure about an orphan, his unusual friends, and the power of imagination. What if everything you imagined could become real? It all starts when Professor Eisenstone, scientist and inventor, creates a box that's supposed to turn whatever you imagine into reality. There's only one problem: he can't get it to work. Until Tim shows up. An orphan with an especially keen imagination, Tim brings to life Phil, an eloquent finger monkey with a dry sense of humor. Tim and Professor Eisenstone work in secret to make the box more powerful. But when Eisenstone is kidnapped along with his contraption, Tim, Phil, and the professor's granddaughter, Dee, must find the criminals before they use the box to turn their imagined evil into something all too real. Creating a miniature monkey is all well and good. But in order to rescue his friend, Tim will have to face his darkest fears and unleash the true potential of his own mind. "A splendid adventure, hilarious and harrowing in turn and so strongly cast that even the precocious pocket primate doesn't steal the show." —Kirkus Reviews, Starred Review "With a solid mystery, fantastic device, warm friendships, a funny monkey, and heartening conclusion, this has a heaping serving of middle-grade antics."-Booklist "The Imagination Box is children's fiction in the classic mode, with double-crosses, deceitful adults and narrow escapes all meshing into a solid mystery plot...and a timeless be-careful-what-you-wish-for message." —Financial Times (UK) This adult colouring book is the most anticipated Feral House's new series. Hundreds of Bowie fans have begged for inclusion in the volume since Bowie has been a life-changing influence for them, due to the icon's transformational aesthetic in gender roles, pop music and movies. Originally written as a gift from a father to a son, the book's simple message--to be understanding, thoughtful, and appreciative--has been enjoyed by men and women of all ages. This edition with all three volumes has been redesigned for a new generation. It is imperative that men step up to their God-assigned positions of authority "not to oppress, manipulate, control, or subvert" but to serve. It is time for men to redefine the current perception of masculinity. This is not easy in a society that emasculates men, but Neil Kennedy provides powerful guidelines to encourage and point the way. Fivestarman inspires, instructs, and empowers men to live the authentic and powerful life that God intended, based on five passions: an adventurous spirit, an entrepreneurial drive, gallant relationships, a faithful character, and a philanthropic cause. This book is a clarion call for men who are willing to rise up and resurrect authentic manhood. When Max is sent to Istanbul to stay with her boring Great Aunt-Elodie, little does she expect to be plunged into a thrilling nighttime adventure across Europe. Max must find her feet in a whirling world of would-be diamond smugglers, thieves and undercover detectives. Will

she discover the real diamond thief before they reach their destination? #5 in the Millennium SF Masterworks series, a library of the finest science fiction ever written. "Science fiction has only produced a few works of actual genius, and this is one of them." —Joe Haldeman #5 in the Millennium SF Masterworks series, a library of the finest science fiction ever written. "Science fiction has only produced a few works of actual genius, and this is one of them." —Joe Haldeman "Bester at the peak of his powers is, quite simply, unbeatable" —James Lovegrove Marooned in outer space after an attack on his ship, Nomad, Gulliver Foyle lives to obsessively pursue the crew of a rescue vessel that had intended to leave him to die. When it comes to pop culture, Alfred Bester (1913-1987) is something of an unsung hero. He wrote radio scripts, screenplays, and comic books (in which capacity he created the original Green Lantern Oath). But Bester is best known for his science-fiction novels, and *The Stars My Destination* may be his finest creation. With its sly potshotting at corporate skullduggery, *The Stars My Destination* seems utterly contemporary, and has maintained its status as an underground classic for fifty years. (Bester fans should also note that iBooks has reprinted *ReDemolished*, which won the very first Hugo Award in 1953.) Twelve-year-old Kofi first spots the prehistoric human on a supermarket roundabout. He is small and dark and curled into a tight ball. His name is Rorty Thrutch and he has zero memory of how he ended up in the unexceptional village of Bradborough, or why he's being hunted ... Kofi soon finds out that Rorty can do amazing things. He can copy, paste and delete objects, using only the power of his mind. This is the discovery of the century and mad, greedy scientists will stop at nothing to track him down. Kofi and best friend Janie are on a mission. Not only must they protect Rorty, but they have to find his missing girlfriend Pogy Blue, too. Our prehistoric ancestors have crashed headlong into the 21st century and time is running out to save them ... From the author of *The Many Worlds of Albie Bright* comes another cutting-edge cosmic space adventure for anyone who's ever looked up at the stars and wondered about the universe. How amazing would it be to have a dad who's an astronaut? To see him go on rocket launches, live in zero gravity, and fly through space like a superhero? Jamie Drake knows. His dad is orbiting Earth in the International Space Station. Jamie thinks it's cool, and he's proud of his dad, but he also really misses him. Hanging out at the local observatory one day, Jamie is surprised when he picks up a strange signal on his phone. Could it be aliens? Are they closer to our planet than anyone realizes? With his dad in space, Jamie feels he has no choice but to investigate on his own. But when something goes wrong with his dad's mission, Jamie is reminded that space is a dangerous place. He decides it's time to prove that he's a hero too. *The Jamie Drake Equation* is about the wonders of space, the courage of astronauts, and the lengths to which we will go to protect the ones we love. "Thrilling, smart and surprisingly poignant . . . will leave young readers with a hunger to know more about the universe and our planet's place in it." --BookPage Word count 1,600 Suitable for young learners One of *The Globe and Mail's* Best Books of 2015 "A punk primer for the youngest set....Yi's incredibly detailed clay figures are a kinetic and inspired art choice. Their crazy creativity matches the expressive spirit of punk....As [Morse] points out, the best way to learn about punk is just to listen....If invested adults love the topic, a shared reading experience can't be beat." --Kirkus Reviews "Clay artist Yi molds...fantastically detailed Plasticine figures to create scenes of the birth of punk. Using a benign craft-project material for the skinny bodies and ragged clothing of Joey Ramone, Sid Vicious, and their rowdy, fist-waving audiences is very much in the spirit of punk (Plasticine is especially good for mohawks), and readers will spend long stretches inspecting her painstakingly modeled guitars, amplifiers, and safety pins." --Publishers Weekly "Why It's Wild: A history of punk music for kids illustrated in Gumby-esque claymation (minus the -mation)." --School Library Journal, 100 Scope Notes's "Wildest Children's Books of 2015" "What is Punk? is fun, sophisticated and beautifully illustrated introduction to the music genre for kids--or adults." --New York Daily News "Reading What is Punk? to [my kids] made me feel as if I was passing on something truly significant. Just don't be surprised if your niece ends up bleaching her hair blonde and tearing up her leather jacket at age 6." --Bustle "Written by Trampoline House founder Eric Morse in classically Suessical iambic, the book is lusciously illustrated with photographs of Play-Doh recreations of all mommy's and daddy's favorite punk heroes: the Ramones, Iggy and the Stooges--and Debbie Harry, David Byrne, David Johansen, Tom Verlaine, and Lou Reed all standing in front of CBGBs." --Bedford & Bowery What Is Punk? is a must-read pop-culture primer for children--an introduction to the punk revolution, recreated in vivid 3-D clay illustrations an "Jack Knight is a rabid collector, operating an antiques and collectibles store in the heart of Opal City. That is, until a terrible tragedy strikes-- Reluctantly adopting his father's former mantle, Jack forges a path as the latest inheritor of the Starman legacy. But now all of Ted's enemies are determined to snuff out this newest star before Jack has a chance to truly shine. Can Jack overcome incredible odds to prove that he has what it takes to be a hero"--Page [4] of cover, vol. 1. In this tender-hearted debut, set against the tumultuous backdrop of life in 1973, when homosexuality is still considered a mental illness, two boys defy all the odds and fall in love. Now in paperback. The year is 1973. The Watergate hearings are in full swing. The Vietnam War is still raging. And homosexuality is still officially considered a mental illness. In the midst of these trying times is sixteen-year-old Jonathan Collins, a bullied, anxious, asthmatic kid, who aside from an alcoholic father and his sympathetic neighbor and friend Starla, is completely alone. To cope, Jonathan escapes to the safe haven of his imagination, where his hero David Bowie's Ziggy Stardust and dead relatives, including his mother, guide him through the rough terrain of his life. In his alternate reality, Jonathan can be anything: a superhero, an astronaut, Ziggy Stardust, himself, or completely "normal" and not a boy who likes other boys. When he completes his treatments, he will be normal—at least he hopes. But before that can happen, Web stumbles into his life. Web is everything Jonathan wishes he could be: fearless, fearsome and, most importantly, not ashamed of being gay. Jonathan doesn't want to like brooding Web, who has secrets all his own. Jonathan wants nothing more than to be "fixed" once and for all. But he's drawn to Web anyway. Web is the first person in the real world to see Jonathan completely and think he's perfect. Web is a kind of escape Jonathan has never known. For the first time in his life, he may finally feel free enough to love and accept himself as he is. Who will hold continue the Starman lineage and carry the Cosmic Rod? And who will protect Opal City? Starman Compendium 2 includes thrilling tales of both Jack Knight's time as Starman and Ted Knight's time in the role. If nothing else, its very title, HELP! I'M BEING HELD A PRISONER IN A RANSOM NOTE FACTORY, at least provides the reader with a hint of the raucous, unbridled insanity held captive within the book's boldly restraining covers. If this was indeed your conclusion on first seeing the title, congratulations on the acumen, acuity, and sheer keenness of your sharp and clever perceptivity! And should finally -- you discover that you actually enjoy Ron Pataky's contribution to the species, you will have the satisfaction of knowing you are in distinguished company! William F. Buckley, Jr. had nothing but good words concerning Ron's offerings, as did both comedienne Phyllis Diller and the late Milton Berle. All were in agreement that folks who enjoy a good laugh undoubtedly will enjoy this writer's uniquely special way with thoughts, words, and phrases. The hilarious first book in a middle-grade fantasy trilogy about the magical rivers that run through the sewers of London and shape history in ways you'd never learn in school. Magic is real. History is a big, fat lie. Hyacinth Hayward's mother has just been kidnapped by lumpy gray monsters in post office uniforms. But why? Well, before Hyacinth moved from Illinois to London, she read up on the city's history. Too bad for her. Because the books are wrong. The truth is, London was built on magical rivers, and all the major events in its past have been about people trying to control the magic. And her family is somehow tied to it. In the chase to get her mom back, Hyacinth

encounters a giant intelligent pig in a bathing suit, a boy with amnesia, an adorable tosher (whatever that is), a sarcastic old lady, and a very sketchy unicorn. Somehow Hyacinth has to figure out who to trust, so she can save her mom and, oh yeah, not cause a second Great Fire of London. A mutant boy sets out to find the lost city which was not poisoned by the ancient atomic war. Bravery, friendship and the magic of an unknowable universe combine in this extraordinary adventure from the heart. Great for fans of Frank Cottrell Boyce and David Almond. In Ethiopia, Ageze has unearthed an ancient device that can make predictions. It tells him: there is a date, there is a place, there is a moment when it will happen. A disaster that will change everything. Halo Moon loves stars, and the night sky is full of them in her remote Yorkshire village. It's a place where nothing interesting ever happens, let alone a catastrophe. So when a stranger appears at the end of a near-impossible journey and tells her lives are at risk, she can barely believe it. But if she doesn't help Ageze, everything and everyone she knows might disappear for ever ... As Halo says: there's a hundred ways to start this story, a hundred ways to tell it. Each one is impossible. Each one, unbelievable. But it did all happen and I promise it's all true. HALO MOON is Sharon Cohen's second novel. Her first novel, THE STARMAN AND ME, was highly commended for the Branford Boase Award 2018 and shortlisted for the Essex Book Awards 2018. It has also been shortlisted for the East Sussex Children's Book Awards 2019 and nominated for the Northern Ireland Book Award 2019. A riot rocks Opal City while an ailing Ted Knight recovers from a recent attack. The action forces Ted's son Jack Knight to pick up Starman's Cosmic Rod and directly oppose the villainy he swore he'd never face! Is this his calling? Or his doom? Collecting Starman #0-5 In a world ravaged by plague with few survivors, a starving orphaned boy finds a new beginning with the "Star People" — space explorers who had saved his planet. He learns that honor, truth, respect, courage, kindness, and the love of his new family are his greatest adventures of all! Life changed for Michael Francis at the age of 21 when Paul McCartney walked into his father's boxing gym to watch his friend John Conteh preparing for a fight. Paul hired Michael as his security guard, beginning a thirty-year music business career in which he worked with such legendary names as Led Zeppelin, Bad Company, The Osmonds, Sheena Easton, Frank Sinatra, Bon Jovi, Cher and Kiss. As tour manager, Michael was responsible for every aspect of their safety and their comfort, from making sure they were not mobbed on stage to making sure they got paid. Whatever they wanted, he got hold of. To some of them he became close. He was best man at Jon Bon Jovi's wedding, and provided personal security for five years for Cher at her Malibu home. He shared their wildest excesses, their highs and their lows; he saw their fears and, all too often, their loneliness and paranoia. Sometimes hilarious, frequently shocking, always perceptive, STAR MAN is the outrageous, uncompromising and brutally honest story of one man's life with the biggest stars of rock. A story of adventure, survival, courage, and hope, set in the vivid Himalayan landscape of Tibet and India. Tash lives in Tibet, where as a practicing Buddhist she must follow many rules to avoid the wrath of the occupying Chinese soldiers. Life remains peaceful as long as Tash, her family, and their community hide their religion and don't mention its leader, the Dalai Lama. The quiet is ruptured when a man publicly sets himself on fire to protest the occupation. In the crackdown that follows, soldiers break into Tash's house and seize her parents. Tash barely escapes, and soon she and her best friend, Sam, along with two borrowed yaks, flee across the mountains, where they face blizzards, hunger, a treacherous landscape, and the constant threat of capture. It's a long, dangerous trip to the Indian border and safety—and not all will make it there. This action-packed novel tells a story of courage, hope, and the powerful will to survive, even in the most desperate circumstances. After the death of his father, young Jack Knight is forced to take over his role as legendary superhero Starman. CW: Suicidal ideation, self-harm, sex/death psychodynamics, but the journey moves from such darkness into radiant,

transformative light! “and the glints on waves / are not glints on waves, but... / stars...” In summer 2010, artist and poet Bruce Rimell fell into a self-destructive spiral of suicidal ideation, confused hyperactivity, and dark dreams so unsettling and so persistent that they threatened to tear his life apart. The most prominent recurring nightmare was one in which he hanged himself and enjoyed it, eager to end his life, but at the last moment he would spit out letters, so did not die. Waking up terrified, he felt himself coming undone, desperately seeking answers but finding none. When he began to 'enter into the image' of this dream, rather than study it rationally, a new and unexpected transformative path opened up towards a more holistic Queer spiritual identity. This in turn kickstarted the healing of his latent self-destructive urges that arose from his internalised rage at centuries of homo/queerphobic persecution. 'Hangman Starman' is a visionary voyage through the darkest realms of Bruce's gay/queer psyche, a brutally honest account of his time in the underworld, and how he worked his dreams to burn his darkness through to the blazing light on the other side. Hello, my name is Solomon Azar -. Now Jack must face a deadly freak-show mystery. He came from Outer Space... It was the greatest invention in the history of pop music – the rock god who came from the stars – which struck a young David Bowie like a lightning bolt from the heavens. When Ziggy the glam alien messiah fell to Earth, he transformed Bowie from a prodigy to a superstar who changed the face of music forever. But who was Ziggy Stardust? And where did he really come from? In a work of supreme pop archaeology, Simon Goddard unearths every influence that brought Ziggy to life – from HG Wells to Holst, Kabuki to Kubrick, and Elvis to Iggy. Ziggyology documents the epic drama of the Starman's short but eventful time on Planet Earth... and why Bowie eventually had to kill him. On April 12, 1961, Yuri Gagarin became the first person in history to leave the Earth's atmosphere and venture into space. His flight aboard a Russian Vostok rocket lasted only 108 minutes, but at the end of it he had become the most famous man in the world. Back on the ground, his smiling face captured the hearts of millions around the globe. Film stars, politicians and pop stars from Europe to Japan, India to the United States vied with each other to shake his hand. Despite this immense fame, almost nothing is known about Gagarin or the exceptional people behind his dramatic space flight. Starman tells for the first time Gagarin's personal odyssey from peasant to international icon, his subsequent decline as his personal life began to disintegrate under the pressures of fame, and his final disillusionment with the Russian state. President Kennedy's quest to put an American on the Moon was a direct reaction to Gagarin's achievement--yet before that successful moonshot occurred, Gagarin himself was dead, aged just thirty-four, killed in a mysterious air crash. Publicly the Soviet hierarchy mourned; privately their sighs of relief were almost audible, and the KGB report into his death remains secret. Entwined with Gagarin's history is that of the breathtaking and highly secretive Russian space program - its technological daring, its triumphs and disasters. In a gripping account, Jamie Doran and Piers Bizony reveal the astonishing world behind the scenes of the first great space spectacular, and how Gagarin's flight came frighteningly close to destruction. Two of the Grand Master's finest: The saga of the opening of the space frontier as courageous men and women risked their lives to build the first space station and colonize the Moon and Venus, while praying for one last landing on the globe that gave them birth, to return to The Green Hills of Earth. From a mysterious region on Earth, where a more advanced lifeform may be studying the interesting creatures called "humans", to the first moon colony, where a young girl's relationship with her boyfriend is endangered by the beautiful Menace from Earth. Classic Heinlein, in a new Omni-trade format package At the publisher's request, this title is sold without DRM (Digital Rights Management). Has there ever been a more charismatic and intriguing rock star than David Bowie? In Starman, Paul Trynka has painted the definitive portrait of a great artist. From Bowie's early years in post-war, bombed-out Brixton to the decadent glamour of Ziggy Stardust to the controversial but vital

Berlin period, this essential biography is a celebration of Bowie's brilliance and a timely reminder of how great music is made - now with an update on the making and release of *The Next Day*. "Whatever route brought you to David Bowie, and whatever spells he has cast on you power the years, I think you'll find much in this book that strikes a chord" - Nicholas Pegg

Everyone knows the story of David Bowie, the Brixton boy who by sheer force of will made himself into the biggest pop star in the world via glam rock, white boy soul and Berlin before signing off by turning even his own death into an artistic statement. This is not his story. Instead it's the story of the lipstick traces he left behind: the impact his artistic endeavours made on our lives. How his music, his acting and his presence inspired people and let them think differently about themselves. Curated by Jon Arnold (*The Black Archive*) and James Gent (*We Are Cult*) and published by Chinbeard Books, *Me and the Starman* tells the stories from the fans and those who knew him, the story of the connections he made with his art. With a foreword from the author of *The Complete David Bowie*, Nicholas Pegg, and an afterword from MainMan president Tony Zanetta and including contributions from musicians such as Adamski, Kristian Hoffman, Malcolm Doherty and Jessica Lee Morgan, Glass Spider tour performer Victor Manoel, novelist Paul Magrs and Eisner Award winning writer and artist Nick Abadzis amongst many others, it traces the often invisible impact he made on lives that might otherwise have been very different. It's a story that stretches from the the Laughing Gnome to Lazarus, from the Beckenham Arts Lab to Blackstar and beyond. *Me and the Starman* is a deeply intimate and very personal collection of stories and essays paying tribute to how the man who fell to Earth grounded us all, and helped the weirdest among us feel a little less alone. It's the story of when you give not only your hands but your hearts to an artist. All profits from this book go toward supporting the work of Cancer Research UK
