UNTITLED SECOND NOVEL Aug 13 2022

The Longest Ride Jun 30 2021 For his eighth birthday, Emilio Scotto received a World Atlas. Promptly he announced his plan to make a route that would pass through all the countries of the world, a route he named BLUE ROAD ONE. When, some years later, he found himself astride a black 1100 Honda Gold Wing motorcycle, Blue Road One beckoned, and Scotto set off on a journey that would last more than a decade, take him virtually everywhere in the world, and land him in the Guinness Book of World Records. This is his story, a thrill ride that begins in his native Argentina, crosses Panama in the tumultuous time of Noriega, Mexico in the midst of an earthquake, and finds him broke in L.A. where, in a chance meeting, Muhammad Ali gives him fifty dollars and a signed book. Breaching the Iron Curtain, crossing the Berlin Wall at Checkpoint Charlie, being blessed by the Pope, set upon by cannibals in Sierra Leone, fleeing Somalia on a freighter, Scotto's adventures would be unbelievable if they weren't true. His tale of touring the world from Tunisia to Turkey, Petra to Afghanistan, Yugoslavia to Singapore, traveling miles enough to take him to the moon and back, is unlike any ever told. Come along, for the ride of a lifetime.

Between Imitation and Innovation Sep 21 2020

Recent years have seen intense debates among management and academics on the rise of 'lean production' and 'Japanization'. Some authors have stressed the 'universal' impact of new forms of work organization and 'best practice' while others have questioned the limits of convergence, stressed the weight of national contexts or 'societal effects', or highlighted the evolutionary effects of unpredictability in the external environment. The international automobile industry has been a focus for much of this debate and this book, written by a team of leading international researchers in the field, uses this industry to examine in detail the actual practice of the transfer and adaptation of productive models and the trajectories of innovation, compromise, and failure that can result. Case studies cover in detail the Japanese transplant experience in North America, and the global experience of hybrid production systems in Europe, Latin America, and Asia. The book contributes to theoretical discussions about the transfer, adaptation, or convergence of productive models. In particular, the authors argue that direct transplantation or imitation of these models is rarely feasible or even desirable. Systems cannot be transferred without being significantly reshaped. Instead, the book focuses on the process of 'hybridization', the complex interaction of productive models with national and societal effects. Hybridization, it is argued, is inevitable. But this should be seen not simply as a process of compromise and retreat but also as an important dynamic of innovation and learning. This book is from the French-based international research network GERPISA (Groupe d'étude de recherche permanent sur l'industrie et les salaires de l'automobile). See related titles below.

Kingdom of Twilight Jul 20 2020

"POWERFUL AND ORIGINAL." --THE TIMES
"REWARDING AND WHOLLY ENGAGING." --
HISTORICAL NOVEL SOCIETY "ONE OF THE
MOST IMPORTANT AND POWERFUL NOVELS
OF RECENT GERMAN LITERATURE." --
DEUTSCHLANDRADIO KULTUR Hypnotically
lyrical and intensely moving, Steven Uhly's epic
novel set in the wake of World War II is a finely
nuanced yet shattering exploration of universal
themes: love, hatred, doubt, survival, guilt,
humanity, and redemption. One night in
autumn 1944, a gunshot echoes through the
alleyways of a small town in occupied Poland.
An SS officer is shot dead by a young Polish
Jew, Margarita Ejzenstain. In retaliation, his
commander orders the execution of thirty-seven
Poles--one for every year of the dead man's life.
First hidden by a sympathetic German couple,
Margarita must then flee the brutal advance of
the Soviet army with her newborn baby. So
begins a thrilling panorama of intermingled
destinies and events that reverberate from that
single act of defiance. Kingdom of Twilight
follows the lives of Jewish refugees and a
German family resettled from Bukovina, as well
as a former SS officer, chronicling the
geographical and psychological dislocation
generated by war. A quest for identity and truth
takes them from refugee camps to Lübeck,
Berlin, Tel Aviv, and New York, as they try to
make sense of a changed world, and of their
place in it.
