Service User and Carer Involvement in Education for Health and Social Care Nov 10 2021 Service user and carer engagement in health and social care, and in the education of practitioners in this area, is emerging as one of the most important new drivers within government policy in a number of countries. However, beyond the rhetoric, there are few guides that address the practicalities of setting up and running such a project. This book is unique in that it will appeal to practitioners, policy makers, and commissioners in health and social care practice and education who buy in to the principles of service user engagement, but who find it hard to know how to progress the practicalities. Based on the set up and running of the unique and very successful Comensus project, this practical and accessible text will provide a framework for building authentic and sustainable community engagement in health and social care education and practice.

A Pastor's Practical Guide to Funerals Aug 08

2021 This straight-forward book integrates the pragmatic "how to" of the funeral process--especially in dealing with "difficult" funerals--with the art of being a caring and healing presence before, during, and after the funeral. While conducting a funeral is one the great privileges of ministry, pastors must be skilled and ready to guide grieving family and friends through the process of saying goodbye and burying a loved one. With sample services, prayers, sermon themes, and Bible readings, this book will help pastors hear, name, and integrate relevant illustration into a respectful story of the deceased's life--a story that is appropriate to the particular circumstances of each situation. Contents include: Preparing for Death; Caring through Anticipated Death; Caring through Sudden Death; Meeting with Family before the Funeral Service; Creating the Funeral Service;

Creating the Funeral Sermon; and Following up with Grievers
