The Botany of Desire Jun 03
2021 "Pollan shines a light on
our own nature as well as on
our implication in the natural
world." —The New York Times
"A wry, informed pastoral."

—The New Yorker The book
that helped make Michael
Pollan, the New York Times
bestselling author of *How to
Change Your Mind*, *Cooked* and
The Omnivore's Dilemma, one
of the most trusted food
experts in America Every
schoolchild learns about the
mutually beneficial dance of
honeybees and flowers: The
bee collects nectar and pollen
to make honey and, in the
process, spreads the flowers'
genes far and wide. In *The
Botany of Desire*, Michael
Pollan ingeniously
demonstrates how people and
domesticated plants have
formed a similarly reciprocal
relationship. He masterfully
links four fundamental human
desires—sweetness, beauty,
intoxication, and control—with
the plants that satisfy them: the
apple, the tulip, marijuana, and
the potato. In telling the stories
of four familiar species, Pollan
illustrates how the plants have
evolved to satisfy humankind's
most basic yearnings. And just
as we've benefited from these
plants, we have also done well
by them. So who is really
domesticating whom?
Garden Spells Aug 25 2020
"Garden Spells" is a wonderful,
enchanted, crafty novel of
sisters--two very different
women, each rooted in some
way to her past--who discover
that the apple doesn't fall far
from the tree when family ties
cast their spell.

"Why?".

[The Monsters of Templeton](#) Jan
11 2022 "The day I returned to
Templeton steeped in disgrace,
the fifty-foot corpse of a
monster surfaced in Lake
Glimmerglass." So begins *The
Monsters of Templeton*, a novel
spanning two centuries: part a
contemporary story of a girl's
search for her father, part
historical novel, and part ghost
story. In the wake of a
disastrous love affair with her
older, married archaeology
professor at Stanford, brilliant
Wilhelmina Cooper arrives
back at the doorstep of her
hippie mother-turned-born-
again-Christian's house in
Templeton, NY, a storybook

town her ancestors founded that sits on the shores of Lake Glimmerglass. Upon her arrival, a prehistoric monster surfaces in the lake bringing a feeding frenzy to the quiet town, and Willie learns she has a mystery father her mother kept secret Willie's entire life. The beautiful, broody Willie is told that the key to her biological father's identity lies somewhere in her family's history, so she buries herself in the research of her twisted family tree and finds more than she bargained for as a chorus of voices from the town's past -- some sinister, all fascinating -- rise up around her to tell their side of the story. In the end, dark secrets come to light, past and present day are blurred, and old mysteries are finally put to rest. The Monsters of Templeton is a fresh, virtuoso performance that has placed Lauren Groff among the best writers of today.

Uncultivated Dec 22 2022

Today, food is being reconsidered. It's a front-and-center topic in everything from politics to art, from science to economics. We know now that leaving food to government and industry specialists was one of the twentieth century's greatest mistakes. The question is where do we go from here. Author Andy Brennan describes uncultivation as a process: It involves exploring the wild; recognizing that much of nature is omitted from our conventional ways of seeing and doing things (our cultivations); and realizing the advantages to embracing what we've somehow forgotten or ignored. For most of us this

process can be difficult, like swimming against the strong current of our modern culture. The hero of this book is the wild apple. Uncultivated follows Brennan's twenty-four-year history with naturalized trees and shows how they have guided him toward successes in agriculture, in the art of cider making, and in creating a small-farm business. The book contains useful information relevant to those particular fields, but is designed to connect the wild to a far greater audience, skillfully blending cultural criticism with a food activist's agenda. Apples rank among the most manipulated crops in the world, because not only do farmers want perfect fruit, they also assume the health of the tree depends on human intervention. Yet wild trees live all around us, and left to their own devices, they achieve different forms of success that modernity fails to apprehend. Andy Brennan learned of the health and taste advantages of such trees, and by emulating nature in his orchard (and in his cider) he has also enjoyed environmental and financial benefits. None of this would be possible by following today's prevailing winds of apple cultivation. In all fields, our cultural perspective is limited by a parallel proclivity. It's not just agriculture: we all must fight tendencies toward specialization, efficiency, linear thought, and predetermined growth. We have cultivated those tendencies at the exclusion of nature's full range. If Uncultivated is about faith in nature, and the power it has to

deliver us from our own mistakes, then wild apple trees have already shown us the way. Buffalo Wild! May 15 2022 "A satisfying ending ensures this nighttime adventure will soothe even the wildest child." Kirkus Reviews An exuberant celebration of the Buffalo's return to the wild. Since Declan was born, his kokum has shared her love of Buffalo through stories and art. But Declan longs to see real Buffalo. Then one magical night, herds of the majestic creatures stampede down from the sky. That's when things really get wild! Azby Whitecalf's playful illustrations add to the joy and reverence in Deidre Havrelock's picture book debut. A reprinting of the Buffalo Treaty and an author's note describe the importance of Buffalo to Indigenous Peoples and efforts to revitalize the species.

The Artist and the Orchard:

A Memoir Nov 20 2022 Artist

Linda Hoffman saved an orchard and reshaped her life at Old Frog Pond Farm in Harvard, Massachusetts. When she moved to the farm she didn't know anything about apple-growing. More than twenty years later, the farm is one of the few organic pick-your-own orchards in New England, as well as a hub for a thriving community of visual artists, writers, and spiritual seekers. Hoffman, the mother of three children, a Zen practitioner, and a breast cancer survivor, has now written about her extraordinary journey in The Artist and the Orchard: A Memoir.

Heritage Apples Apr 25 2023

What would a greengrocer say if you were to ask for half a dozen Grenadiers and a couple of Catsheads? In the course of the past century we have lost much of our rich heritage of orchard fruits, but with taste once again triumphing over shelf-life and a renewed interest in local varieties, we are rediscovering the delights of that most delicious and adaptable fruit: the apple. Illustrated with Victorian apple paintings, this book tells the intriguing stories behind each variety, how they acquired their names and their merits for eating, cooking or making cider. Includ[es] practical advice on how to choose and grow your own trees.... -- Cover, page [4]

Siren Feasts Jun 23 2020

Cheese, wine, honey and olive oil - four of Greece's best known contributions to culinary culture - were already well known four thousand years ago. Remains of honeycombs and of cheeses have been found under the volcanic ash of the Santorini eruption of 1627 BC. Over the millennia, Greek food diversified and absorbed neighbouring traditions, yet retained its own distinctive character. In *Siren Feasts*, Andrew Dalby provides the first serious social history of Greek food. He begins with the tunny fishers of the neolithic age, and traces the story through the repertoire of classical Greece, the reputations of Lydia for luxury and of Sicily and South Italy for sybaritism, to the Imperial synthesis of varying traditions, with a look forward to the Byzantine cuisine and the development of the modern

Greek menu. The apples of the Hesperides turn out to be lemons, and great favour attaches to Byzantine biscuits. Fully documented and comprehensively illustrated, scholarly yet immensely readable, *Siren Feasts* demonstrates the social construction placed upon different types of food at different periods (was fish a luxury item in classical Athens, though disdained by Homeric heroes?). It places diet in an economic and agricultural context; and it provides a history of mentalities in relation to a subject which no human being can ignore. **Comfort Me With Apples** Aug 18 2022 *Comfort Me With Apples* is a terrifying new thriller from bestseller Catherynne M. Valente, for fans of *Gone Girl* and *Spinning Silver*. Sophia was made for him. Her perfect husband. She can feel it in her bones. He is perfect. Their home together in Arcadia Gardens is perfect. Everything is perfect. It's just that he's away so much. So often. He works so hard. She misses him. And he misses her. He says he does, so it must be true. He is the perfect husband and everything is perfect. But sometimes Sophia wonders about things. Strange things. Dark things. The look on her husband's face when he comes back from a long business trip. The questions he will not answer. The locked basement she is never allowed to enter. And whenever she asks the neighbors, they can't quite meet her gaze.... But everything is perfect. Isn't it? At the Publisher's request, this

title is being sold without Digital Rights Management Software (DRM) applied. **Ciderology** Nov 28 2020 In *Ciderology*, Gabe Cook, aka 'The Ciderologist,' leading global cider expert, shares his passion for all things cider (and perry!), with an essential history of the drink and production processes, and a round-the-world tour of the most important and exciting cider makers in operation. You'll find delicious recipes incorporating cider, tasting notes for cider styles that you can try yourself, and a wealth of anecdotes and tales that intermingle fact and myth. A real treat for the drinks enthusiast, inveterate cider lover and cider novice alike, *Ciderology* contains anything and everything you have ever needed to know about cider. What is Ciderology? - Ciderology is about understanding the way cider making has evolved over the centuries, from the heart of cider country to the new wave of cider makers. - It's about learning how terroir and climate affect the quality of cider, just like a wine; and how to match your favourite dishes with the perfect cider. - It's about wassailing, community and tradition, but is also about the innovative and creative craft cider makers emerging all over the world. *American Cider* Mar 13 2022 "Not just a thorough guide to the history of apples and cider in this country but also an inspiring survey of the orchardists and cidemakers devoting their lives to sustainable agriculture through

apples.”—Alice Waters “Pucci and Cavallo are thorough and enthusiastic chroniclers, who celebrate cider’s pomologists and pioneers with infectious curiosity and passion.”—Bianca Bosker, New York Times bestselling author of *Cork Dork* Cider today runs the gamut from sweet to dry, smooth to funky, made from apples and sometimes joined by other fruits—and even hopped like beer. In *American Cider*, aficionados Dan Pucci and Craig Cavallo give a new wave of consumers the tools to taste, talk about, and choose their ciders, along with stories of the many local heroes saving apple culture and producing new varieties. Like wine made from well-known grapes, ciders differ based on the apples they’re made from and where and how those apples were grown. Combining the tasting tools of wine and beer, the authors illuminate the possibilities of this light, flavorful, naturally gluten-free beverage. And cider is more than just its taste—it’s also historic, as the nation’s first popular alcoholic beverage, made from apples brought across the Atlantic from England. Pucci and Cavallo use a region-by-region approach to illustrate how cider and the apples that make it came to be, from the well-known tale of Johnny Appleseed—which isn’t quite what we thought—to the more surprising effects of industrial development and government policies that benefited white men. *American Cider* is a guide to enjoying cider, but even more so, it is a guide to being part of a

community of consumers, farmers, and fermenters making the nation’s oldest beverage its newest must-try drink. [Odd Apples](#) Mar 01 2021 From perfect pink ladies to rough-skinned russets: a gorgeous study of the wondrous variety of apples William Mullan's obsession with apples began when he saw his first Egremont Russet at a Waitrose grocery store outside of London. Fascinated by its gnarled, potato-like appearance and shockingly fresh, nutty flavor, Mullan began searching for, and photographing, rare apple varieties. In *Odd Apples*, each apple is lovingly rendered and styled according to its individual "personality"—a combination of its looks and its flavors. The apples are set against complementary brightly colored backdrops; they are peeled or unpeeled, cut or whole, skin shriveled or perfectly smooth and shiny. It is precisely this odd charm combined with the hitherto unknown that makes these photographs fascinating studies of a supposedly commonplace fruit. Mullan embraces its idiosyncratic aesthetic qualities completely, and invites us, in this attractive gift book, to embark on a visual expedition into the world of the apple. By day, William Mullan (born 1989) works at an artisanal chocolate factory in Brooklyn, and by night, he photographs fruit. British-born, New York-based Mullan came to photography as an autodidact and his talent was quickly recognized. His *Odd Apple* project developed into an

influential and much talked-about series, reviewed by the *New Yorker*, the *New York Times* and *i-D Magazine*, and released as a sold-out run of prints on his website. [The Fruit Hunters](#) Apr 01 2021 A historical account of the role of fruit in the modern world explores the machinations of multi-national corporations in distributing exotic fruits, the life of mass-produced fruits, and the author's experience with unusual varieties that are unavailable in America. ***In the Eye of the Wild*** Jul 05 2021 After enduring a vicious bear attack in the Russian Far East's Kamchatka Peninsula, a French anthropologist undergoes a physical and spiritual transformation that forces her to confront the tenuous distinction between animal and human. In *The Eye of the Wild* begins with an account of the French anthropologist Nastassja Martin's near fatal run-in with a Kamchatka bear in the mountains of Siberia. Martin's professional interest is animism; she addresses philosophical questions about the relation of humankind to nature, and in her work she seeks to partake as fully as she can in the lives of the indigenous peoples she studies. Her violent encounter with the bear, however, brings her face-to-face with something entirely beyond her ken—the untamed, the nonhuman, the animal, the wild. In the course of that encounter something in the balance of her world shifts. A change takes place that she must somehow reckon with. Left severely mutilated, dazed

with pain, Martin undergoes multiple operations in a provincial Russian hospital, while also being grilled by the secret police. Back in France, she finds herself back on the operating table, a source of new trauma. She realizes that the only thing for her to do is to return to Kamchatka. She must discover what it means to have become, as the Even people call it, medka, a person who is half human, half bear. In the *Eye of the Wild* is a fascinating, mind-altering book about terror, pain, endurance, and self-transformation, comparable in its intensity of perception and originality of style to J. A. Baker's classic *The Peregrine*. Here Nastassja Martin takes us to the farthest limits of human being.

Inside Apple Sep 06 2021
INSIDE APPLE reveals the secret systems, tactics and leadership strategies that allowed Steve Jobs and his company to churn out hit after hit and inspire a cult-like following for its products. If Apple is Silicon Valley's answer to Willy Wonka's Chocolate Factory, then author Adam Lashinsky provides readers with a golden ticket to step inside. In this primer on leadership and innovation, the author will introduce readers to concepts like the "DRI" (Apple's practice of assigning a Directly Responsible Individual to every task) and the Top 100 (an annual ritual in which 100 up-and-coming executives are tapped a la *Skull & Bones* for a secret retreat with company founder Steve Jobs). Based on numerous interviews, the book offers exclusive new

information about how Apple innovates, deals with its suppliers and is handling the transition into the Post Jobs Era. Lashinsky, a Senior Editor at *Large for Fortune*, knows the subject cold: In a 2008 cover story for the magazine entitled *The Genius Behind Steve: Could Operations Whiz Tim Cook Run The Company* Someday he predicted that Tim Cook, then an unknown, would eventually succeed Steve Jobs as CEO. While *Inside Apple* is ostensibly a deep dive into one, unique company (and its ecosystem of suppliers, investors, employees and competitors), the lessons about Jobs, leadership, product design and marketing are universal. They should appeal to anyone hoping to bring some of that Apple magic to their own company, career, or creative endeavor.

[Wild Apples](#) Jul 29 2023

The Longest Cocktail Party Sep 18 2022
Apple Records was a noble experiment created in the spirit of the 1960s by four musicians who came to represent everything that was best about those tumultuous, experimental, and liberating times. The Beatles started out with the greatest of intentions, but reality soon got in the way. Much has been written about this period in the history of The Beatles' evolution and dissolution---some of it true, some of it wildly exaggerated, but not much of it first-hand. The *Longest Cocktail Party* is a rare exception. Written by Richard DiLello, who served as Apple Record's "House Hippie" from 1968 to 1970, this unusual

first-hand glimpse into The Beatles' empire humorously chronicles the stranger-than-life stories that were to become legendary, including visits by the Hell's Angels and endless tales of celebrity antics. Alfred Music is proud to offer this latest edition, which features a new and insightful foreword by the author. Originally published by Playboy Press in 1972, *The Longest Cocktail Party* has proven itself a timeless chronicle of this most colorful period in pop history.
Into the Wild Sep 26 2020
NATIONAL BESTSELLER • In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. Four months later, his decomposed body was found by a moose hunter. This is the unforgettable story of how Christopher Johnson McCandless came to die. "It may be nonfiction, but *Into the Wild* is a mystery of the highest order." —*Entertainment Weekly*
McCandless had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Not long after, he was dead. *Into the Wild* is the mesmerizing, heartbreaking tale of an enigmatic young man who goes missing in the wild and whose story captured the world's attention. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he

abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding—and not an ounce of sentimentality. *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's stoytelling blaze through every page.

[Apples of Uncommon Character](#) Aug 30 2023 In his classic *A Geography of Oysters*, Rowan Jacobsen forever

changed the way America talks about its best bivalve. Now he does the same for our favorite fruit, showing us that there is indeed life beyond Red Delicious—and even Honeycrisp. While supermarkets limit their offerings to a few waxy options, apple trees with lives spanning human generations are producing characterful varieties—and now they are in the midst of a rediscovery. From heirlooms to new designer breeds, a delicious diversity of apples is out there for the eating. Apples have strong personalities, ranging from crabby to wholesome. The Black Oxford apple is actually purple, and looks like a plum. The Knobbed Russet looks like the love child of a toad and a potato. (But don't be fooled by its looks.) The D'Arcy Spice leaves a hint of allspice on the tongue. Cut Hidden Rose open and its inner secret is revealed. With more than 150 art-quality color photographs, *Apples of Uncommon Character* shows us the fruit in all its glory. Jacobsen collected specimens both common and rare from all over North America, selecting 120 to feature, including the best varieties for eating, baking, and hard-cider making. Each is accompanied by a photograph, history, lore, and a list of characteristics. The book also includes 20 recipes, savory and sweet, resources for buying and growing, and a guide to the best apple festivals. It's a must-have for every foodie.

Apples of North America Mar 25 2023 “For all of us who cherish the apple, its utility, its flavors, and its powers of

revelation and connection.” —Adrian Higgins, garden columnist, *The Washington Post* The apple is one of the most iconic fruits, traditionally picked on cool fall days and used in pies, crisps, ciders, and more. And there is a vast world of varieties that goes well beyond the common grocery store offerings. With names like American Beauty, Carter's Blue, and Fallawater, and flavors ranging from sweet to tart, this treasure trove of unique apples is ripe for discovery. There is no better guide through this tasty world than Tom Burford, whose family has grown apples in the Blue Ridge Mountains since 1715. His celebratory book *Apples of North America* is brimming with beautiful portraits of heirloom and modern apples of merit, each accompanied by distinguishing characteristics and common uses. You will also find information on growing apples at home—with specifics on planting, pruning, grafting, and more—and instructions on how to preserve apples through pressing, fermenting, cooking, and drying.

Based on a True Story May 03 2021 NEW YORK TIMES BESTSELLER • “Driving, wild and hilarious” (*The Washington Post*), here is the incredible “memoir” of the legendary actor, gambler, raconteur, and Saturday Night Live veteran. When Norm Macdonald, one of the greatest stand-up comics of all time, was approached to write a celebrity memoir, he flatly refused, calling the genre “one step below instruction manuals.” Norm then promptly

took a two-year hiatus from stand-up comedy to live on a farm in northern Canada. When he emerged he had under his arm a manuscript, a genre-smashing book about comedy, tragedy, love, loss, war, and redemption. When asked if this was the celebrity memoir, Norm replied, "Call it anything you damn like."

Wild (Oprah's Book Club 2.0 Digital Edition) Jul 17 2022 #1 NEW YORK TIMES BESTSELLER • A powerful, blazingly honest memoir: the story of an eleven-hundred-mile solo hike that broke down a young woman reeling from catastrophe—and built her back up again. At twenty-two, Cheryl Strayed thought she had lost everything. In the wake of her mother's death, her family scattered and her own marriage was soon destroyed. Four years later, with nothing more to lose, she made the most impulsive decision of her life. With no experience or training, driven only by blind will, she would hike more than a thousand miles of the Pacific Crest Trail from the Mojave Desert through California and Oregon to Washington State—and she would do it alone. Told with suspense and style, sparkling with warmth and humor, *Wild* powerfully captures the terrors and pleasures of one young woman forging ahead against all odds on a journey that maddened, strengthened, and ultimately healed her.] Oprah's Book Club 2.0 selection: This special eBook edition of Cheryl Strayed's national best seller, *Wild*, features exclusive content, including Oprah's

personal notes highlighted within the text, and a reading group guide.

The Water and the Wild (Sneak Preview) Aug 06 2021 Want a sneak peek? Download this free sample of *The Water and the Wild* by Katie Elise Ormsbee. A green apple tree grows in the heart of Thirsby Square, and tangled up in its magical roots is the story of Lottie Fiske. For as long as Lottie can remember, the only people who seem to care about her are her best friend, Eliot, and the mysterious letter writer who sends her birthday gifts. But now strange things are happening on the island Lottie calls home, and Eliot's getting sicker, with a disease the doctors have given up trying to cure. Lottie is helpless, useless, powerless—until a door opens in the apple tree. Follow Lottie down through the roots to another world in pursuit of the impossible: a cure for the incurable, a use for the useless, and protection against the pain of loss.

Magic Hour Dec 10 2021 From the #1 New York Times bestselling author of *The Nightingale* and *The Great Alone* comes an incandescent story about the resilience of the human spirit, the triumph of hope, and the meaning of home. In the rugged Pacific Northwest lies the Olympic National Forest—nearly a million acres of impenetrable darkness and impossible beauty. From deep within this old growth forest, a six-year-old girl appears. Speechless and alone, she offers no clue as to her identity, no hint of her past. Having retreated to her

western Washington hometown after a scandal left her career in ruins, child psychiatrist Dr. Julia Cates is determined to free the extraordinary little girl she calls Alice from a prison of unimaginable fear and isolation. To reach her, Julia must discover the truth about Alice's past—although doing so requires help from Julia's estranged sister, a local police officer. The shocking facts of Alice's life test the limits of Julia's faith and strength, even as she struggles to make a home for Alice—and for herself. "One of [Kristin Hannah's] most compelling and riveting novels."—Booklist

Apples : Old and New

Varieties Jan 28 2021 This special re-print edition of the US Dept. of Agriculture's book "Apples: Old and New" is a guide to heirloom apple varieties. Written in 1913, this classic text provides basic insight into over 800 varieties of apples that were grown at the turn of the century. *The Succession of Forest Trees, and Wild Apples (Classic Reprint)* Oct 20 2022 Excerpt from *The Succession of Forest Trees*, and *Wild Apples* The biographical sketch by Emerson which precedes the two papers by Thoreau, here printed, has this advantage over most biographies, that it helps one to understand the real man, and does not shut up the reader's interest in a knowledge of the mere circumstances of Thoreau's life. It is like a portrait which carries the eye straight to the character of the man portrayed, and does not arrest it at the dress or decorations.

Indeed, Emerson was so impressed by the life and character of Thoreau that he forgot to mention the fact of his death. Thoreau died May 6, 1862. The only full narrative of his life is to be found in the volume *Henry D. Thoreau*, contributed by his friend and fellow-townsmen, F. B. Sanborn, to the series of *American Men of Letters*. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. Uncultivated Nov 01 2023 "The hero of this book is the wild apple. *Uncultivated* follows Brennan's twenty-four-year history with naturalized trees and shows how they have guided him toward successes in agriculture, in the art of cider making, and in creating a small-farm business. The book contains useful information relevant to those particular fields, but is designed to connect the wild to a far greater audience, skillfully blending cultural criticism with

a food activist's agenda."-- Provided by publisher [Wild Apples](#) Feb 09 2022 **At the Edge of the Orchard** Dec 30 2020 "With impeccable research and flawless prose, Chevalier perfectly conjures the grandeur of the pristine Wild West . . . and the everyday adventurers—male and female—who were bold enough or foolish enough to be drawn to the unknown. She crafts for us an excellent experience." —USA Today From internationally bestselling author Tracy Chevalier, author of *A Single Thread*, comes a riveting drama of a pioneer family on the American frontier 1838: James and Sadie Goodenough have settled where their wagon got stuck - in the muddy, stagnant swamps of northwest Ohio. They and their five children work relentlessly to tame their patch of land, buying saplings from a local tree man known as John Appleseed so they can cultivate the fifty apple trees required to stake their claim on the property. But the orchard they plant sows the seeds of a long battle. James loves the apples, reminders of an easier life back in Connecticut; while Sadie prefers the applejack they make, an alcoholic refuge from brutal frontier life. 1853: Their youngest child Robert is wandering through Gold Rush California. Restless and haunted by the broken family he left behind, he has made his way alone across the country. In the redwood and giant sequoia groves he finds some solace, collecting seeds for a naturalist who sells plants from the new world to the gardeners

of England. But you can run only so far, even in America, and when Robert's past makes an unexpected appearance he must decide whether to strike out again or stake his own claim to a home at last. Chevalier tells a fierce, beautifully crafted story in *At the Edge of the Orchard*, her most graceful and richly imagined work yet. **The New Cider Maker's Handbook** Jun 27 2023 "All around the world, the public's taste for fermented cider has been growing more rapidly than at any time in the past 150 years. At its best, cider is a pure, healthy beverage that reflects both the skill of the cider maker and the quality of the fruit that's used to make it. And with the growing interest in locally grown and artisan foods, many new cideries are springing up all over North America--often started up by passionate amateurs who want to take their craft cider to the next level as small-scale craft producers. To make the very best cider--whether for yourself, your family and friends, or for market--you first need a deep understanding of the processes involved, and the art and science behind them. Fortunately, *The New Cider Maker's Handbook* is here to help. Author Claude Jolicoeur is a well-known and award-winning amateur cider maker with an inquiring, scientific mind. His book combines the best of traditional knowledge and techniques with the best modern practices to provide today's enthusiasts all they need to produce high-quality ciders. From deep,

comprehensive information on all aspects of fermentation to advice on the best apples to grow or source for cider to instructions on how to build your own grater mill or cider press, the author's experience and enthusiasm shine through. Novices will appreciate the overview of the cider-making process that's presented in Part I. But as they develop their skills and confidence, the more in-depth and technical parts of the book will serve as an invaluable reference that will be consulted again and again"--*Wild Fruits* Apr 13 2022

Thoreau presents information about the "unnoticed wild berry whose beauty annually lends a new charm to some wild walk, " along with what "may be considered Thoreau's last will and testament, in which he protests our desecration of the landscape, reflects on the importance of preserving wild space 'for instruction and recreation, ' and envisions a new American scripture."--Jacket.

[Wild Apples and Other Natural History Essays](#) Oct 08 2021

This volume of seven essays and a late lecture by Henry David Thoreau makes available important material written both before and after Walden. First appearing in the 1840s through the 1860s, the essays were written during a time of great change in Thoreau's environs, as the Massachusetts of his childhood became increasingly urbanized and industrialized. William Rossi's introduction puts the essays in the context of Thoreau's other major works, both chronologically and intellectually. Rossi also

shows how these writings relate to Thoreau's life and career as both writer and naturalist: his readings of Ralph Waldo Emerson and Charles Darwin; his failed bid for commercial acceptance of his work; and his pivotal encounter with the utter wildness of the Maine woods. In the essays themselves, readers will see how Thoreau melded conventions of natural history writing with elements of two popular literary forms--travel writing and landscape writing--to explore concerns ranging from America's westward expansion to the figural dimensions of scientific facts and phenomena. Thoreau the thinker, observer, wanderer, and inquiring naturalist--all emerge in this distinctive composite picture of the economic, natural, and spiritual communities that left their marks on one of our most important early environmentalists.

Eating on the Wild Side Feb 21 2023 Winner of the 2014 IACP Cookbook Award in the category of "Food Matters." The next stage in the food revolution--a radical way to select fruits and vegetables and reclaim the flavor and nutrients we've lost. Ever since farmers first planted seeds 10,000 years ago, humans have been destroying the nutritional value of their fruits and vegetables. Unwittingly, we've been selecting plants that are high in starch and sugar and low in vitamins, minerals, fiber, and antioxidants for more than 400 generations. **EATING ON THE WILD SIDE** reveals the solution--choosing modern

varieties that approach the nutritional content of wild plants but that also please the modern palate. Jo Robinson explains that many of these newly identified varieties can be found in supermarkets and farmer's market, and introduces simple, scientifically proven methods of preparation that enhance their flavor and nutrition. Based on years of scientific research and filled with food history and practical advice, **EATING ON THE WILD SIDE** will forever change the way we think about food.

The Apple Lover's Cookbook: Revised and Updated Oct 27 2020 Winner of the IACP Cookbook Award (Best American Cookbook) Finalist for the Julia Child First Book Award "The perfect apple primer." —Splendid Table *The Apple Lover's Cookbook* is more than a recipe book. It's a celebration of apples in all their incredible diversity, as well as an illustrated guide to 70 popular (and rare-but-worth-the-search) apple varieties. Each has its own complete biography with entries for best use, origin, availability, season, appearance, taste, and texture. Amy Traverso organizes these 70 varieties into four categories—firm-tart, tender-tart, firm-sweet, and tender-sweet—and includes a one-page cheat sheet that you can refer to when making any of her recipes. More than 100 scrumptious, easy-to-make recipes follow, offering the full range from breakfast dishes, appetizers, salads, soups, and entrees all the way to desserts. On the savory side, there's a

cider-braised brisket and a recipe for Sweet Potato-Apple Latkes. On the sweet side, Amy serves up crisps, cobblers, pies, and cakes, including Apple-Pear Cobbler, Cider Donut Muffins, and an Apple-Cranberry Slab Pie cut into squares to eat by hand. As bonuses, *The Apple Lover's Cookbook* contains detailed notes on how to tell if an apple is fresh and guides to apple festivals, ciders, and products, as well as updated information about the best times and places to buy apples across the United States, making it easy to seek out and visit local orchards, whether you live in Vermont or California. First published a decade ago, now newly revised and updated, *The Apple Lover's Cookbook* is your lifetime go-to book for apples.

The Cider Revival May 27 2023
"From unraveling the history of the apple to exploring the intricacies of flavor, [Wilson] reveals the love and labor that goes into a timeless beverage."
—Bianca Bosker, New York Times—bestselling author of *Cork Dork*
Cider is the quintessential American beverage. Drank by early settlers and founding fathers, it was ubiquitous and pervasive, but following Prohibition when orchards were destroyed and neglected, cider all but disappeared. In *The Cider Revival*, Jason Wilson chronicles what is happening now, an extraordinary rebirth that is less than a decade old. Following the seasons through the autumn harvest, winter fermentation, spring bottling, and summer festival and orchard work, Wilson travels

around New York and New England, with forays to the Midwest, the West Coast, and Europe. He meets the new heroes of cider: orchardists who are rediscovering long lost apple varieties, cider makers who have the attention to craftsmanship of natural wine makers, and beverage professionals who see cider as poised to explode in popularity. What emerges is a deeply rewarding story, an exploration of cider's identity and future, and its cultural and environmental significance. A blend of history and travelogue, *The Cider Revival* is a toast to a complex drink. "Cider is America's great forgotten beverage. Jason Wilson's lively, anecdote-filled, passionate paean to what he says should properly be considered 'apple win' will go a long way toward giving this immensely varied and complex libation the recognition and appreciation it deserves."

—Colman Andrews, cofounder of *Saveur* and author of *The British Table*

Infinite Loop Jul 25 2020
The inside story of how one of America's most beloved companies--Apple Computer--took off like a high-tech rocket--only to come crashing to Earth twenty years later. No company in modern times has been as successful at capturing the public's imagination as Apple Computer. From its humble beginnings in a suburban garage, Apple sparked the personal computer revolution, and its products and founders--Steve Jobs and Steve Wozniak--quickly became part of the American myth. But something

happened to Apple as it stumbled toward a premature middle age. For ten years, it lived off its past glory and its extraordinary products. Then, almost overnight, it collapsed in a two-year free fall. How did Apple lose its way? Why did the world still care so deeply about a company that had lost its leadership position? Michael S. Malone, from the unique vantage point of having grown up with the company's founders, and having covered Apple and Silicon Valley for years, sets out to tell the gripping behind-the-scenes story--a story that is even zanier than the business world thought. In essence, Malone claims, with only a couple of incredible inventions (the Apple II and Macintosh), and backed by an arrogance matched only by its corporate ineptitude, Apple managed to create a multibillion-dollar house of cards. And, like a faulty program repeating itself in an infinite loop, Apple could never learn from its mistakes. The miracle was not that Apple went into free fall, but that it held up for so long. Within the pages of *Infinite Loop*, we discover a bruising portrait of the megalomaniacal Steve Jobs and an incompetent John Sculley, as well as the kind of political backstabbing, stupid mistakes, and overweening egos more typical of a soap opera than a corporate history. *Infinite Loop* is almost as wild and unpredictable, as exhilarating and gut-wrenching, as the story of Apple itself.

Collected Works of Henry David Thoreau Part III :

(Wild Apples + The Maine Woods + Resistance to Civil Government) Jan 23 2023

This Combo Collection (Set of 3 Books) includes All-time Bestseller Books. This anthology contains: Wild Apples The Maine Woods Resistance to Civil Government In the Wild Light Nov 08 2021 NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times • Buzzfeed • Kirkus Reviews • Publishers Weekly • Chicago Public Library “Redefines friendship as something that must be protected, sacrificed for, and tended to with wisdom, patience, and love.” —Ocean Vuong, New York Times bestselling author of On Earth We’re Briefly Gorgeous A poignant coming-of-age novel about two best friends whose friendship is tested when they get the opportunity to leave their impoverished small town for an elite prep school. For fans of Looking for Alaska. Life in a small Appalachian town is not easy. Cash lost his mother to an opioid addiction and his Papaw is dying slowly from emphysema. Dodging drug dealers and watching out for his best friend, Delaney, is second nature. He’s been spending his summer mowing lawns while she works at Dairy Queen. But when Delaney

manages to secure both of them full rides to an elite prep school in Connecticut, Cash will have to grapple with his need to protect and love Delaney, and his love for the grandparents who saved him and the town he has to leave behind. Jeff Zentner's new novel is a beautiful examination of grief, found family, and young love.

Wild Apples Sep 30 2023 A meditation on apples begins with a short history of the apple tree, tracing its path from ancient Greece to America. Thoreau saw the apple as a perfect mirror of man and eloquently lamented where they both were heading.
