Inter-American Yearbook on Human Rights / Anuario Interamericano de Derechos

Humanos, Volume 25 (2009) Feb 20 2023 This Yearbook aims to contribute to a greater awareness of the functions and activities of the organs of the Inter-American system for the protection of human rights.

*Handbook of Brewing Dec 29 2020* Offers detailed studies of beer and its production as well as its commercial and economic aspects. All beverages worldwide which are beer-like in character and alcoholic content are reviewed. The book delineates over 900 chemical compounds that have been identified in beers, pinpoints their sources, gives concentration ranges, and examines their influence on beer quality. This work is intended for brewing, cereal and food chemists and biochemists; composition, nutrition, biochemical, food and quality assurance and control engineers; nutritionists; food biologists and technologists; microbiologists; toxicologists; and upper level undergraduate and continuing-education students in these disciplines.

*Population Growth, Social Segregation, and Voting Behavior in Lima, Peru, 1940–2016 Jul 24 2020* As one of South America's larger capital cities, Lima, Peru, is remarkably understudied as a demographic and economic entity unto itself. In this important book, Henry Dietz presents an in-depth historical, sociological, and political analysis of a major Latin American city in the post–World War II period. Dietz examines electoral data for Lima's districts from six censuses conducted between 1940 and 2007, framed against a backdrop of extensive demographic data for the city, to trace the impact of economic collapse and extended insurgency on Lima and its voters. Urbanization in Lima since World War II has at times been rapid, violent, and traumatic, and has resulted in marked social inequalities. Dietz looks at how equity across the city has not in general improved; Lima is today segregated both spatially and socially. Dietz asks if and how a high degree of segregation manifests itself politically as well as socially and spatially. Do urban dwellers living under profound and enduring social segregation consistently support different parties

and candidates? As institutional political parties have faded since the 1990s and have been replaced by personalist movements, candidacies, and governments, Dietz explores how voters of different social classes behave. The result is a vital resource for researchers seeking well-contextualized information on elections and economics in Peru. This book will be of interest to scholars of politics or economics, especially in Latin America, but also to a much wider audience interested in how the developments in Lima, Peru, affect the global sociopolitical climate.

**Governance Models for Latin American Universities in the 21st Century** Jul 28 2023

This book explores new models and future possibilities of university governance in a Latin American context using management and leadership theories. The dramatic changes and uncertainty facing the world recently have forced us to reimagine the future of education. Changes such as digitalization, the increasing number of corporate universities, and the need for cost-effective educational programs and services require universities to keep evolving while ensuring that they maintain their essence as a critical social asset. This book offers a new approach to managing and leading the university, particularly by embracing the role and responsibility of delivering quality educational programs and services, by being innovative and flexible enough to make urgent decisions and act upon them in a timely and appropriate manner. With its contributions to management and the social sciences, this interdisciplinary book will serve as a valuable resource to researchers, administrators, and students alike.
