In this action-packed adventure set in the universe of The Resistance, Gregg Hurwitz (Legends of the Dark Knight, Vengeance of Moon Knight), Mark Texeira (Ghost Rider, Wolverine), and Brain Reber (X-Men: Legacy, Spider-Man/Deadpool) introduce a masked vigilante for the 21st Century. Bob Ryder is a hapless bureaucrat whose bad luck streak comes to a crescendo when he accidentally kills the city's masked vigilante, The Knight. Oops. Now, Bob is forced to take on the mantle of the legendary hero before the city descends into chaos. Good thing he's got The Knight's former butler/assistant to show him the ropes. Includes Part 1, Number 1: Books and Pamphlets, Including Serials and Contributions to Periodicals (January - June) 'Let him kill a lion with a pestle, husband; let him kill a lion with a pestle.' So exclaims the Grocer's wife who, with her husband and servants, is attending one of the London's elite playhouses where a theatre company has just begun to perform. Peeved at the fact that all the plays they see are satires on the lives and values of London's citizenry, the Grocer and his wife interrupt and demand a play that instead contains chivalric quests and courtly love. What's more, they nominate their apprentice Rafe to take on the hero's role of the

knight in this entirely new play. The author, Francis Beaumont, ends up not just satirising the grocers' naive taste for romance but parodying his own example of citizen comedy. This play-within-a-play becomes a pastiche of contemporary plays that scorned those who were not courtiers or at least gentlemen or ladies. Like Cervantes in *Don Quixote*, Beaumont exposes the folly of those that take representations for realities, but also celebrates their idealism and love of adventure. The editor, Michael Hattaway, is editor of plays by Shakespeare and Jonson as well as of several volumes of critical essays, and author of *Elizabethan Popular Theatre*, *Hamlet: The Critics Debate*, and *Renaissance and Reformations: An Introduction to Early Modern English Literature*. He is Professor Emeritus of English Literature in the University of Sheffield. The biography by Harrington (1883) is rare, found only in professional & university libraries, generally not available to the public. So why this anthology of published papers by seven authors including Logan himself? In 1998, Sir William Logan was selected as the most important scientist in Canadian history. In 2000, headlines were made when the government proposed replacing his name on Canada's highest mountain in the Yukon. The public protested; the proposal was withdrawn. Logan's name is on numerous geographic & geologic features from offshore Nova Scotia near Sable Island to the Queen Charlotte Islands off British Columbia. In 2004, the CBC searched for the most important Canadians in a historic context, Logan's name is on the list. Her Name was Latisha Latisha Poiner and I gave her my last name Knight. The Day I did It I felt it was right. Now Here we go again and my Son has an eternal friend. The Two together in Marital Bliss. In Life it does not get to much better than This. Four children find a magic way to go back into the time of Ivanhoe and Robin Hood. A Caldecott Honor Winner and New York Times Bestseller! A determined Owl builds strength and confidence in this medieval picture book about the real mettle of a hero: wits, humor, and heart. Since the day he hatched, Owl dreamed of becoming a real knight. He may not be the biggest or the strongest, but his sharp nocturnal instincts can help protect the castle, especially since many knights have recently gone missing. While holding guard during Knight Night Watch, Owl is faced with the ultimate trial—a frightening intruder. It's a daunting duel by any measure. But what Owl lacks in size, he makes up for in good ideas. Full of wordplay and optimism, this surprising display of bravery proves that cleverness (and friendship) can rule over brawn. This book provides a cutting-edge analysis of the ways in which higher education institutions have become more international over the past two decades. Drawing upon a range of post-foundational spatial, network, and mobilities theories, the book shifts our thinking away from linear, binary, Western accounts of internationalization to understand the complex, multi-centered and contradictory ways in which internationalization processes have played out across a wide variety of higher education landscapes worldwide. The author explores transnational student, scholar, knowledge, program and provider mobilities; the production of mobile bodies, knowledges, and identities; the significance of place in internationalization; and the crucial role that global university rankings play in reshaping the spatial landscape of higher education. OK Before Arthur, There was Uther. Before Lancelot, There was Balin The Savage. Before the Holy Grail could be found...it had to be lost. Balin grows up revering the memory of his father, a storied knight of the High King Uther's time. He is held back from following in his footsteps by his mother, a priestess of the old religion whose capitol is the Isle of Avalon. When she is burned at the stake as a witch by fanatics, Balin blames the corrupting influence of Avalon and sets himself against all that is pagan. A new high king arises; Arthur, whose rule must unite pagan and Christian alike. Sir Balin, now known as The Savage for his ferocity in battle, answers the king's call for champions, but in his heart, questions the presence of the shadowy wizard Merlin beside the throne. When a vengeful enchantress comes to Camelot bearing a cursed sword that will make Balin the greatest knight in all Albion, but doom him to slay his beloved king, Balin sets out on a long quest that will veer between God and glory, love and madness, justice and revenge, and change the land forever. Three Kingdoms. Two wars. And one queen who is desperate to save them all. The kingdoms of Tunock, Taus, and Wilmington have been at peace for more than five hundred years. On their secluded peninsula, life is perfect for royalty and commoners alike. Fear of the pirates in the waters keep them from exploring further than the beaches, and tales of strange visions and missing persons keep them from going to the mountains Beyond. They are happy with their way of living and content in knowing that as long as they don't cross the borders; they are safe. But everything changes when the castle of Tunock burns to the ground and the royal family disappears with no one to blame. Princess Lauraine of Tunock never dreamed that she would spend her seventeenth birthday escaping a burning castle, but that's precisely how she spent it. Left to the mercy of a knight whom she's never met before, Princess Lauraine goes into hiding while trying to solve the political mystery of who attacked her home--and why. She befriends an old knight--whom her father declared insane--and though she trusts her father's declaration as much as she trusts him, something about the old man seems sincere. Could her father have been wrong about him? And when strange things happen throughout the kingdoms--things that should only belong in the fairy tale books--Lauraine finds herself at an impasse: should she rise to the position of Queen and restore order to her kingdom; or

risk losing her kingdom entirely in search of the truth? As the events happening in the Three Kingdoms continue to unwind, Princess Lauraine makes a choice. A choice that promises little reward and far more humiliation if she's wrong. With a small band of friends who she deems trustworthy, Lauraine gives her everything to become the person who will save her kingdom--even if it means losing herself.

Occasionally, a tale comes along that has been lost in the mists of time. Often the story starts out as just another mundane event in daily life until something else comes out from behind the shadows. And when it does, nobody can escape the fire storm that follows, especially when the masked one demands so much of our attention. Because in the end, the consequences of his actions eventually consume all of those in its path. William McBride was such a person in the early 14th century, when he came in contact with the Logan brothers of Lanark, who were also known to the locals as the Gemini Knights. These brothers were Templar Knights of the Scottish Order and they carried out a number dangerous exploits in their time. And as William McBride found out in later life, the times he spent with the brothers would eventually place him on a path that could have a profound impact on the City of Jerusalem at the end time. To some, this story may appear to be just another old wives tale, worthy of a good read and then placed on the book shelve to gather dust from now on. However, to others the story of the Gemini Knights has more than just a ring of truth to it in some kind of old fashioned way. Enough, to engage the mind in more than a simple observation of the material that William McBride collected over his life time. So, if you have an inquisitive mind and want to gain a glimpse into the future, the only question you have to ask yourself is. 'Do I have the courage to read the book and judge for myself?' Historical inquiry forms the foundation for much research undertaken in art education. While traversing paths of historical investigation in this field we may discover undocumented moments and overlooked or hidden individuals, as well as encounter challenging ideas in need of exploration and critique. In doing so, history is approached from multiple and, at times, vitally diverse perspectives. Our hope is that the conversations generated through this text will continue to strengthen and encourage more interest in histories of art education, but also more sophisticated and innovative approaches to historical research in this field. The overarching objective of the text is to recognize the historical role that many overlooked individuals—particularly African Americans and women—have played in the field of art education, and acknowledge the importance of history and historical research in this digital age. This text opens up possibilities of faculty collaborations across programs interested in history and historical research on a local, national, and international level. By assembling the work of various scholars from across the United States, this text is intended to elicit rich conversations about history that would be otherwise beyond what is provided in general art education textbooks.

Growing up beside the Chisholm Trail, captivated by the songs of passing cowboys and his bosom friend, an African American farmhand, John A. Lomax developed a passion for American folk songs that ultimately made him one of the foremost authorities on this fundamental aspect of Americana. Across many decades and throughout the country, Lomax and his informants created over five thousand recordings of America's musical heritage, including ballads, blues, children's songs, fiddle tunes, field hollers, lullabies, play-party songs, religious dramas, spirituals, and work songs. He acted as honorary curator of the Archive of American Folk Song at the Library of Congress, directed the Slave Narrative Project of the WPA, and cofounded the Texas Folklore Society. Lomax's books include *Cowboy Songs and Other Frontier Ballads*, *American Ballads and Folk Songs*, *Negro Folk Songs as Sung by Leadbelly*, and *Our Singing Country*, the last three coauthored with his son Alan Lomax. *Adventures of a Ballad Hunter* is a memoir of Lomax's eventful life. It recalls his early years and the fruitful decades he spent on the road collecting folk songs, on his own and later with son Alan and second wife Ruby Terrill Lomax. Vibrant, amusing, often haunting stories of the people he met and recorded are the gems of this book, which also gives lyrics for dozens of songs. *Adventures of a Ballad Hunter* illuminates vital traditions in American popular culture and the labor that has gone into their preservation. Here is everything you need to know about being a knight, from from being a young page to being knighted. In this action-packed adventure set in the universe of *The Resistance*, Gregg Hurwitz (*Legends of the Dark Knight*, *Vengeance of Moon Knight*), Mark Texeira (*Ghost Rider*, *Wolverine*), and Brain Reber (*X-Men: Legacy*, *Spider-Man/Deadpool*) introduce a masked vigilante for the 21st Century. Jessie exited the forest onto his dad's field. The sight before him left him standing still in shock. Instead of a field full of corn, he was seeing soldiers all standing in a line facing him, with many tents and campfires spread over the land. He always had an imagination and had adventures with it, but this was too real. No one moved, but a sound from the forest drew his attention. Clutching his backpack full of books, he watched a trail of fire coming toward him; and then men with swords and men on horseback, all burning red, went past him to the soldiers that stood nearby. Just then one of these burning soldiers drove a burning axe into his backpack and sent him flying. Was this the end of Jessie or just the beginning of the greatest adventure he would ever experience?
