Study Guide and Lesson Plans for the Book of Revelation Sep 30 2021 This study guide for the book of Revelation has been divided into thirteen lessons. It should probably be suitable for a Sunday school teacher who wants to teach the book of Revelation in a thirteen-week quarter. It will also be good for anyone who just wants an easier way to examine the complexities of the book of Revelation. Each lesson begins by stating the focus of the lesson. Then a list of usually five questions follow which are intended to guide the instructor through the most important parts of the lesson. The structure of each lesson is in outline form. That should make it easier for teaching rather than having to read a book and then talk about it. Each Roman numeral section matches the questions given at the beginning of the lesson. Each Roman numeral also has a title to identify its topic or subject. That way, the instructor, student, or reader can quickly go to the particular part of the outline that answers that question. Each lesson will conclude with closing remarks. It should be pointed out that the book of Revelation is a very complicated book. For that reason, eighteen

figures have been included because it has been said that a picture is sometimes worth a thousand words. It is always difficult to understand prophecy that has not yet happened. Then of course, there are also those who have said that much of the book of Revelation has already happened. So this study guide has tried to address those kinds of concerns. The first lesson talks about Covenant Theology and about Dispensationalism among other things. It then provides some reasons for believing that the book of Revelation should be interpreted literally. There is a great deal to consider when attempting a text such as this one. Therefore, a lot of effort has gone into it and many references have been used to try to get it right. It is hoped that the users will find this information useful and instructive. To God be the glory for what He has done and for what He will do in the future.
