Named by *The Washington Post* as one of the 11 Leadership Books to Read in 2018 When it comes to recruiting, motivating, and creating great teams, Patty McCord says most companies have it all wrong. McCord helped create the unique and high-performing culture at Netflix, where she was chief talent officer. In her new book, *Powerful: Building a Culture of Freedom and Responsibility*, she shares what she learned there and elsewhere in Silicon Valley. McCord advocates practicing radical honesty in the workplace, saying good-bye to employees who don't fit the company's emerging needs, and motivating with challenging work, not promises, perks, and bonus plans. McCord argues that the old standbys of corporate HR—annual performance reviews, retention plans, employee empowerment and engagement programs—often end up being a colossal waste of time and resources. Her road-tested advice, offered with humor and irreverence, provides readers a different path for creating a culture of high performance and profitability. *Powerful* will change how you think about work and the way a business should be run. This is their story of persistence and tenacity to cement their relationship giving their children a basis to thrive. It is a story to give you hope raising more challenging children in a society that loves perfection. Today's Church faces challenges and crises it can only overcome through prayer. His formal schooling abruptly cut off at age eleven, George Washington saw his boyhood dream of joining the British army evaporate and recognized that even his aspiration to rise in colonial Virginian agricultural society would be difficult. Throughout his life he faced challenges for which he lacked the academic foundations shared by his more highly educated contemporaries. Yet Washington's legacy is clearly not one of failure. Breaking new ground in Washington scholarship and American revolutionary history, Adrienne M. Harrison investigates the first president's dedicated process of self-directed learning through reading, a facet of his character and leadership long neglected by historians and biographers. In *A Powerful Mind*, Harrison shows that Washington rose to meet these trials through a committed campaign of highly focused reading, educating himself on exactly what he needed to do and how best to do it. In contrast to other famous figures of the revolution--Thomas Jefferson, John Adams, Benjamin Franklin--Washington did not relish learning for its own sake, viewing self-education instead as a tool for shaping himself into the person he wanted to be. His two highest-profile and highest-risk endeavors--commander in chief of the Continental Army and president of the fledgling United States--are a testament to the success of his strategy. This nationally-acclaimed book shows how popular movements used nonviolent action to overthrow dictators, obstruct military invaders and secure human rights in country after country, over the past century. Peter Ackerman and Jack DuVall depict how nonviolent sanctions--such as protests, strikes and boycotts--separate brutal regimes from their means of control. They tell inside stories--how Danes outmaneuvered the Nazis, Solidarity defeated Polish communism, and mass action removed a Chilean dictator--and also how nonviolent power is changing the world today, from Burma to Serbia. This book is about televangelism, and the televangelists who have no doubt they speak for God, and in his best voice. Yet, it is so shallow it could slide under a squeegee. While he lay near death pinned in the car, God starts him and his wife on a spiritual journey. Very similar to Elijah, the prophet, "The angel of the Lord came again the second time, and touched him, and said, Arise and eat; because the journey is too great for thee." As a result of his injuries, he had brain surgery. During that time, the family had to endure many trials and tribulations. During the same year, within two months of his accident, the wife had a brain Aneurysm that was double trouble for the family. There are many people on this earth who have asked God, "Why?" for example, why do I have to go through hard trials and tribulations? God, why so many diseases? Why were the people of Israel in slavery so long? Why so many drugs and crime? Why don't I have parents? Why did I lose my children in a fire? Why after twenty- five years, my husband and I go through divorce? Why? Why? the answer is Why not? God is the same today, yesterday and forever. the Bible teaches us to be overcomers. The advice contained hereina collection of best practices on how to make the most of HRis based on the hard-earned experience of business leaders from large, medium, and smaller companies in various industries, both public and private. How do CEOs and HR leaders complement their skills, strengths, and weaknesses to work together effectively? How do CEOs and HR chiefs become aligned around core values and common goals? How does HR help create a unified and engaged corporate culture, where shared values and unity of purpose drive performance? As one of the CEOs interviewed in this book says, The ultimate measure of HR success is not in tactical things, like involuntary turnover or time to fill positions. HR needs to play an essential role in driving every one of our key results. At the end of the day, our results are all that matter. Therefore, everyones ultimate measure should be that, and HR is no exception. A Powerful Team shows how a business unit that once served a largely tactical role is now at the forefront of strategic planning and execution. This book is available for FREE download via reformed1517.blogspot.com This book critically examines the recent discussions of powers and powers-based accounts of causation. The author then develops an original view of powers-based causation that aims to be compatible with the theories and findings of natural science. Recently, there has been a dramatic revival of realist approaches to properties and causation, which focus on the relevance of Aristotelian metaphysics and the notion of powers for a scientifically informed view of causation. In this book, R.D. Ingthorsson argues that one central feature of powers-based accounts of causation is arguably incompatible with what is today recognised as fact in the sciences, notably that all interactions are thoroughly reciprocal. Ingthorsson's powerful particulars view of causation accommodates for the reciprocity of interactions. It also draws out the consequences of that view for issue of causal necessity and offers a way to understand the constitution and persistence of compound objects as causal phenomena. Furthermore, Ingthorsson argues that compound entities, so understood, are just as much processes as they are substances. A Powerful Particulars View of Causation will be of great interest to scholars and advanced students working in metaphysics, philosophy of science, and neo-Aristotelian philosophy, while also being accessible for a general audience. Brian Daldorph first entered the Douglas County Jail classroom in Lawrence, Kansas, to teach a writing class on Christmas Eve 2001. His last class at the jail for the foreseeable future was mid-March 2020, right before the COVID-19 lockdown; the virus is taking a heavy toll in confined communities like nursing homes and prisons. Words Is a Powerful Thing is Daldorph's record of teaching at the jail for the two decades between 2001 and 2020, showing how the lives of everyone involved in the class—but especially the inmates who came to class week after week—benefited from what happened every Thursday afternoon in that jail classroom, where for two hours inmates and instructor became a circle of ink and blood, writing together, reciting their poems, telling stories, and having a few good laughs. Words Is a Powerful Thing brings into the light the works of fifty talented inmate writers whose work deserves attention. Their poetry speaks of "what really matters" to all of us and gives the reader sustained insight into the role that creativity plays in aiding survival and bringing

positive change for inmates, and, in turn, for all of us. Daldorph's account of his teaching experience not only takes the reader inside the daily life at a county jail but also sets the work done in the writing class within the larger context of inmate education in the US corrections system, where education is often one of the few lifelines available to inmates. *Words Is a Powerful Thing* provides a teaching guide for instructors working with incarcerated writers, offering an extensive examination of both the challenges and benefits. When Brian Daldorph decided the story of his classroom experiences and the great writing produced by the inmates deserved to be told to wider audiences, he struggled with how to bring it all together. Not long after, an inmate wrote a poem titled "Words Is a Powerful Thing," offering Daldorph a title, concept, and purpose: to show that the poetry of inmates speaks not just to other inmates but to all of us.
